

INVESTMENT PROGRAM

Forex without investments - is it real? Many traders, especially those who only begin the way of conquest of the currency market ask a similar question. It would seem, the answer is obvious: it is impossible to trade without money ... but on Forex market everything is possible!

There are some ways to earn on Forex, without spending a cent. For example, competitions on demo accounts. DC FOREXstart offers you competitions with a daily prize in \$3000, and also proposes a unique option with a good chance to everyone, regardless of qualification and experience of the auction: a special investment program.

The investment program from DC FOREXstart - one of ways to start gaining income, without investing money.

The essence of the investment program is very simple: FOREXstart brings into your account \$100 and \$100 more - for introduction of a unique promo code, so you get \$200 (real) for carrying out trade operations.

How does the investment program work?

1. FOREXstart gives you money - 2 accounts open in parallel: investment (on which you receive money) and real (from which you can withdraw profit). If you already have a real account, you shouldn't open it repeatedly.

2. You give trade orders: try, experiment or adhere to any checked tactics, study trading or improve the skills of the

trader. You gradually move ahead on stages of the investment program, solving new issues and having the best opportunities.

3. You get profit part of which remains to you, and the other part comes back to FOREXstart. The ratio "to whom - how much" depends on how far you are promoted on stages of the investment program.

Thus, the safe principle of mutually beneficial cooperation is the cornerstone of the FOREXstart investment program: you have a trade opportunity with withdrawal of funds without investments, and DC - good percent from the money which you earned.

Even if you lost all money on the investment account - it is not necessary to return it back. FOREXstart assumes all risks.

Main reasons to choose FOREXstart investment program:

1. The income from trade on Forex without investments
2. The income by partner program within the investment one
